## Mikes Holmes Building Hope Filled Houses...

**Mike Holmes** and his crew are rebuilding hope in the Lower 9th Ward of New Orleans, the area worst hit when the levee broke in August 2005. They will be constructing the first of 150 houses that have been planned by **Brad Pitt's Make It Right Foundation**. The charitable organization is building the houses for the **third anniversary of Hurricane Katrina**: August 29, 2008.

These homes are intended to be more than just replacement dwellings for the displaced families of the Lower 9th. They are examples for the world and the future - affordable homes that can withstand both natural disasters and reduce energy consumption. Mike and his team's story will be featured as a **two-hour special** for Global Television and a six-hour series for **HGTV** set to launch April 7<sup>th</sup>.
